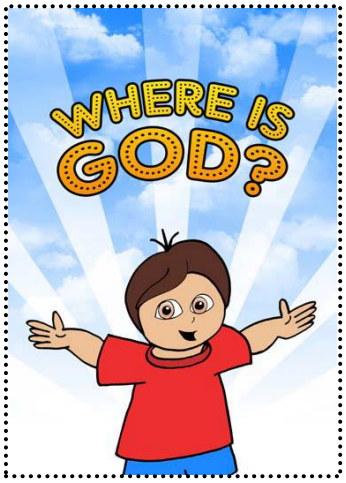
Where is God?

Words by T. Ferry ***Music by B. Mc Ginn***

Chorus

Where is God?
is he up in the clouds above
with the angels
where is God?
is what I ask today-----ay.



Where is God?
is he up in the clouds above
with the angels
where is God?
is what I ask today-----ay.

SECONDS

God is in the sun, in the moon, in the sky
God is in the wind, in the rain, in the showers
God is in the cold, in the frost and **snow**,
God is in the heat, in the fire's warm **glow**.

God is all around me everywhere I go
Keeping me close watching you and me grow
God is all around me every time I see
Trying each day to be present to me……Chorus

God is all around me in the birds of the air
Never far away showing you and me love and care
God is all around me in the plants and trees
Trying each day ever present to me ……Chorus

God is all around us Can you see him now
God is everywhere when you look with your heart
God is all around you, he is very near
Trying each day to be present and here ……Chorus

THERE IS GOD!!!!
