

### **Saint Brigid's P.S., Cranagh**

Dear God,  
Please look over the children in Ukraine and keep them safe. We pray that they have food, water, shelter, clothes and some toys. Please keep them with their families.

We pray that the Holy Spirit will give the leaders of these countries courage and wisdom to make the correct decisions and choices. We pray that the war will end, evil will stop and Ukraine and its children will be at peace.

**Amen**

Dear Heavenly Father

We come before you as a school community deeply saddened by the war in Ukraine and in a desperate plea for your help that you place your loving arms around the children of Ukraine.

Unfortunately, the atrocities of war have caused them to witness things that no child should ever see robbing them of their innocence, the security of their home, their family and for some their future.

We ask you loving father to intercede, give them a supernatural strength to overcome the devastating circumstances they find themselves in.

We ask you to grant them peace and special protection.

We ask you to provide them with a place of refuge, warmth and food where they can feel safe from all harm.

Show us Lord how we can better support our brothers and sisters in Ukraine and together achieve peace and harmony living as God intended. Teach us to be selfless, generous with our time in praying for the children of Ukraine and use our unique gifts to instil the positive change that the world so desperately needs during these harrowing times.

We make this special prayer to you O Lord our prince of peace.

Amen

God Our Father,

We pray for the young people of Ukraine, that You will protect them from the new evil that has entered their lives. Help them to find hope in the dark days of war.

Bless their families and loved ones and keep them safe and protected from harm.

Soften the hearts and minds of those responsible for the pain and suffering inflicted on innocent men, women and children. Help them to see that what they are doing is wrong and desperate.

We ask that through Your intercession the killing and destruction will come to an end and the people of Ukraine will be able to put their lives back together once again.

We pray this in Your name and the name of Mary Our Mother, Queen of Peace.

Amen.
